$2,995
The Stratus ESGi kit includes the certified transponder and a non-certified ADS-B receiver (Stratus 2i) that was designed to work only with Stratus ESG.

Stratus 2i has the same feature set as Stratus 2S, but without the battery or internal antennas. When connected to Stratus ESG, this receiver provides the same industry-leading ADS-B and AHRS experience on ForeFlight Mobile that pilots have come to expect from the Stratus product family.
