

Thank you for your interest in The Delaware Aviation Museum's Flight Experience Program aboard our B-25 J Mitchell Bomber, 'Panchito'. Please read the following information and contact us at 443-458-8926 with any questions.

The cost for each passenger is \$425.00. We accept cash, credit cards (Visa, MC, Discover), personal check with ID, or Travelers Checks. You will receive a letter recognizing your donation at the conclusion of your flight. Payment is not expected until you check in for your flight. If your flight is delayed or cancelled, you will be notified by phone, so please give a cell phone # when you make your reservation.

You must check in with us at our table **NO LESS** than 30 minutes before your scheduled flight time; however, you may check in as early as you like, once we arrive at the venue. If you fail to check in at least 30 minutes prior to your flight time, we reserve the right to sell your seat to another passenger.

Children under the age of 18 years must be accompanied by a parent or guardian passenger.

Passengers should be in reasonable physical condition to fly in Panchito. A passenger may be rejected if the pilot feels that He/She would not be able to exit through the emergency exits due to physical size or ability. Any questions or concerns regarding physical size or ability should be directed to Lorie Thomsen at the phone number listed above.

You should not ride in our B-25 if you have any medical condition which could be aggravated by extreme noise, heat, small spaces or lack of ventilation. If you are prone to motion sickness, vertigo or cannot easily climb the vertical steps into the aircraft or move about the aircraft to gain access to the emergency exits in case of an emergency, you are discouraged from flying.

Acceptable apparel must be worn. Dresses, high heels and loose, flowing clothing should not be worn. Sandals are discouraged.

Your Flight Experience will last approximately 30 minutes, from the time you begin to taxi out until you taxi back in. A full safety briefing will take place at the aircraft just prior to your flight. This briefing, conducted by the flight crew, will cover all emergency procedures as well as seat belts, what you can and cannot do once aboard and what to expect before, during and after your flight.

Panchito can take a maximum of 6 passengers, but will launch with a minimum of 3, if that is all that sign up for a particular flight. If we do not get at least 3 passengers for a given flight, and you have signed up for that flight, we will contact you and try to get you on another flight. Seats are booked on a first-come, first-served basis. There are three seats forward of the Bombay and three seats aft of the Bombay with another seat for crew. There are **NO** bad seats on our aircraft! Each seat position offers great views of both the inside and outside. Once airborne, you may tour the entire section where your seat is located. Please see the seating chart on the back of this letter .

Thank you again for your interest in our Flight Experience Program and we look forward to having you as crew on an upcoming mission!
